

Delivering The MSP Agreement Standard™

Designed to help MSPs manage risk and grow revenue and business value.

ITagreeOS™ is based on extensive MSP-specific legal expertise and provides an end-to-end solution, from agreement setup to signed customer agreements, with legal integrity as a constant.

No more generic agreements that leave you exposed.

- Service-specific agreements that define boundaries.

One place for everything.

- End-to-end solution including e-signature.

Support delivered how you like it.

- Self-service, raise a ticket or get help from our Agreement Specialists. Dedicated point of contact.

Consistent agreements across your customer base, for greater efficiency.

- Alternatives managed as/when needed.

Never work off an old version.

- Updates and version control handled for you.

Easily manage contract renewals.

- Our dashboard tracks contract status and prompts you before deadlines hit.

Getting Set up and Started.

- Get set up fast, begins with guided agreement selection.
- One fixed implementation cost, no surprises.

Choose ITagreeCore or ITagreePlus

(or try out ITagreeOS™ for free with **ITagreeExplore** by contacting ITagree - support@itagree.com)
