DATA SHEET

Absolute Secure Access for MSPs

Deliver Always-On, Secure Connectivity for Your Clients—No Matter Where They Work

In today's mobile world, your success as an MSP depends on your ability to deliver secure, high-performance service to clients—regardless of where their teams are working. Absolute Secure Access™ is purpose-built for this reality, empowering you to provide resilient, self-healing network connectivity that not only minimizes downtime and automates issue resolution but also ensures consistent Quality of Service (QoS) and secure access to the critical tools and applications your clients rely on.

With built-in capabilities across VPN, ZTNA, Secure Web Gateway, and Digital Experience Monitoring (DEM), Absolute's platform gives you the power to support hybrid, remote, and field-based users—all while reducing support tickets, strengthening security, and enhancing the customer experience.

Key Benefits for MSPs

- ✓ **Ensure Always-On Access to Client Systems:** Detect and automatically repair compromised endpoint agents and critical network tools—so your customers' teams always have access to the systems they rely on.
- ✓ **Reduce Support Burden with Self-Healing Infrastructure:** Eliminate the need for manual intervention with automated diagnostics and remediation across device and network layers. Fewer tickets. Happier clients.
- ✓ **Protect and Manage Client Environments at Scale:** Deliver secure remote access to cloud, on-prem, and hybrid environments—while enforcing granular, policy-based control from a single platform.
- ✓ **Drive Compliance & Visibility:** Get real-time analytics into usage patterns, connectivity health, geolocation, and threat categorization—helping you prove value to clients and support compliance needs.
- ✓ **Flexible Deployment Options for MSP Delivery Models:** Choose between cloud-based or on-prem deployment based on client requirements—both designed for high availability, zero downtime, and massive scalability.

Why MSPs Choose Absolute Secure Access

- **Purpose-Built for the Mobile Workforce:** Whether your clients' employees are in the office, at home, or in the field, Absolute keeps them connected securely and reliably.
- **All-in-One SSE Platform:** Consolidate VPN, ZTNA, SWG, and DEM into one powerful solution that's easy to deploy and manage across customer accounts.
- **Resilient Access with Built-In Intelligence:** Ensure uninterrupted connectivity with automated detection and remediation of network issues—keeping users securely connected and productive wherever they work.
- **Proven Scale:** Support up to 60,000 concurrent users with enterprise-grade performance.

Tailored for MSP Use Cases

- Support field teams in industries like healthcare, utilities, logistics, and first responders—including police, fire, and ambulance services
- Secure endpoints accessing SaaS and on-prem apps across multiple networks
- Maintain SLAs by minimizing connectivity downtime and resolution times
- Reduce operational overhead with centralized management and diagnostics
- Add value to managed service bundles with secure access as a differentiator

Choose According to Your Business Needs

Absolute Secure Access packages are offered in two flavors, Absolute Core™ and Absolute Edge™.

Absolute Core

Absolute VPN

Built from ground up for mobility and the modern edge

What's Included

- ✓ Actively improve the employee experience
- ✓ Always-on connectivity, using tunnel and session resilience
- ✓ Video and audio optimizations
- ✓ Secure application access via mobile-first enterprise VPN

MOST POWERFUL

Absolute Edge

All Core capabilities, plus

Absolute ZTNA

Best user experience for the software-defined perimeter

- ✓ Full visibility outside the corporate perimeter
- ✓ Continuous risk assessments, using multiple data points to power access policies
- ✓ Restrict access to enterprise resources, no matter where they're hosted

Absolute Insights for Network

Best diagnostics and remediation for digital experience monitoring

- ✓ Patented, proactive diagnostics on device and network
- ✓ Network performance analytics outside the corporate perimeter; from cellular to public Wi-Fi
- ✓ Real-time geolocation dashboards
- ✓ Threat categorization of domains visited by remote workers

ABSOLUTE EDGE ADD-ON

✓ **Absolute Secure Web Gateway Service**

Delivers a secure browsing experience for all—desk, mobile, or hybrid users.
