

DATASHEET

Absolute Rehydrate for MSPs

Empower Endpoint Recovery for Your Clients—Anywhere, Anytime

As an MSP, your ability to respond quickly and efficiently to ransomware, malware, or OS-level failures directly affects your clients' business continuity. Traditional recovery methods—like shipping USB drives or relying on physical access—are no longer viable in today's hybrid, distributed work environments.

Built on Absolute's unique Persistence® technology embedded in the firmware of over 600 million devices, Absolute Rehydrate enables MSPs to recover endpoints remotely—even when the OS is corrupted or unreachable. This powerful capability transforms how you deliver business continuity and cyber resilience to your clients—without manual intervention or costly delays.

Why MSPs Choose Absolute Rehydrate

Traditional Recovery Is Holding You—and Your Clients—Back

Manual recovery methods like shipping USB drives or waiting on physical access are slow, costly, and impractical in hybrid or distributed work environments. As an MSP, you need a scalable, cloud-managed solution that lets you restore client endpoints efficiently, regardless of their location.

The MSP Advantage with Absolute Rehydrate

Customize Recovery Playbooks for Different Client Needs

From full OS restoration to targeted file, script, or registry fixes, you can tailor your remediation strategy to match the specific scenario—minimizing business disruption and service desk load.

Secure, Scalable, and Controlled

- Remote recovery via the Absolute Console—no need for onsite visits.
- “Break-glass” passcode-protected boot process.
- Role-based access control ensures only authorized team members can initiate recovery.
- Real-time tracking and auditing for compliance and SLA assurance.

Key Features for MSPs

- ✓ **Remote OS restoration after** cyber incidents or IT failures (e.g., BSOD).
- ✓ **Granular recovery options:** push scripts, delete malicious files, restore specific registries.
- ✓ **Firmware-level control** that bypasses compromised OS environments.
- ✓ **No hardware handling:** restore devices anywhere in the world.
- ✓ **White-labeled support:** enhance your managed service offering with enterprise-grade resilience.

Built for the Distributed Enterprise

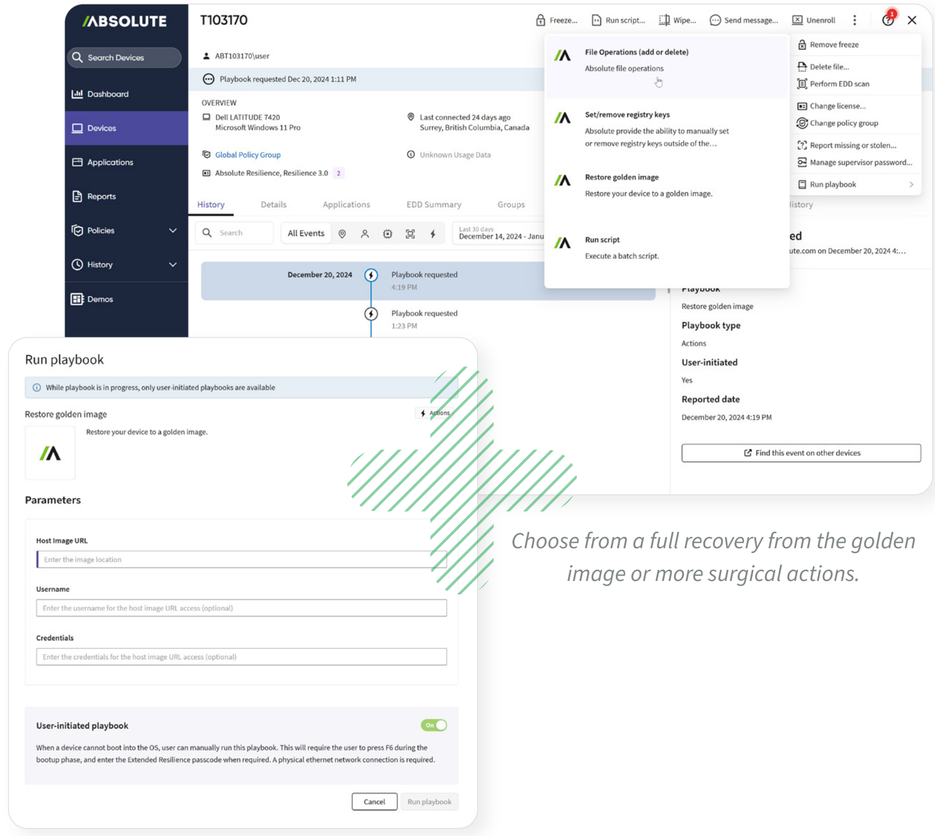

Your clients trust you to deliver uptime. With Absolute Rehydrate, you can:

- Respond rapidly to endpoint threats across client environments.
- Restore operational continuity without physically touching a device.
- Reduce IT strain with automated recovery workflows.
- Enhance your security service portfolio with remote remediation built for scale.

Partner with Absolute—Deliver Resilience as a Service.

Absolute Rehydrate is available through the Absolute Resilience platform, including specialized offerings for Security and Automation.
