DATA SHEET

Absolute Resilience for MSPs

Deliver Cyber Resilience at Scale — Seamlessly and Profitably

As an MSP, your clients count on you to deliver consistent, secure, and scalable IT operations. But traditional endpoint and security tools often degrade over time, go unmanaged, or are disabled—leading to blind spots and increased risk.

Absolute Resilience™ enables MSPs to confidently manage, monitor, and secure endpoints and critical applications across diverse client environments, ensuring service-level agreements (SLAs) are met, cyber risk is minimized, and operational overhead is reduced.

Why Absolute Resilience for MSPs?

- **Built-In for Scale:** Leverage Absolute's Persistence® technology, embedded in over 600M devices from leading OEMs, to ensure continuous visibility and control—no agents to reinstall or systems to chase down.
- **Automated Self-Healing:** Automatically detect and repair unhealthy or compromised security tools, endpoint agents, and business-critical applications—reducing manual ticket resolution and downtime, while ensuring the tools you rely on to protect and manage your customers are always available and performing.
- **Multi-Tenant Management:** Operate across multiple client environments from a single pane of glass with the Absolute Console, streamlining remote support, compliance tracking, and threat response.
- **Reduce Operational Overhead:** Remotely remediate issues, recover stolen or compromised devices, and rehydrate endpoints post-incident to a fully trusted state—saving time and boosting service efficiency.
- **Prove Compliance & Defend SLAs:** Offer clients peace of mind with continuous monitoring, detailed reporting, and autonomous recovery capabilities that help you validate compliance and deliver tangible security outcomes.

Key Capabilities MSPs Rely On

- ✓ **Application Resilience:** Ensure core security tools (EDR, AV, UEM) are always functional—if altered or removed, they auto-repair.
- ✓ **Remote Remediation:** Push scripts, freeze or wipe devices, and remediate vulnerabilities—without dispatching a technician.
- ✓ **Incident Recovery & Device Rehydration:** Restore compromised endpoints to a known-good, policy-compliant state after an attack.
- ✓ **Security Posture Visibility:** Identify gaps across 2,000+ supported applications to proactively address weaknesses.
- ✓ **Compliance Reporting:** Demonstrate device and control health to clients with real-time reports and alerts.

Ready to Deliver Always-On Endpoint Assurance?

Accelerate MSP Growth with Absolute

With Absolute Resilience, MSPs can expand their service portfolio to include automated endpoint self-healing, compliance assurance, and cyber resilience-as-a-service. Deliver higher-value managed security offerings without increasing headcount—backed by a platform trusted by global enterprises and embedded in the firmware of leading devices.

Absolute Visibility

Source of truth for device and application health.

What's Included

- ✓ Device Health
- ✓ Security Posture
- ✓ Device Usage
- ✓ Geolocation
- ✓ Web Application Usage
- ✓ Endpoint Data Discovery

Absolute Control

Lifeline to protect at-risk devices and data.

All Visibility capabilities, plus

- ✓ Geofencing
- ✓ Device Freeze
- ✓ File Delete
- ✓ Device Wipe
- ✓ End User Messaging
- ✓ Remote Firmware Protection

Absolute Resilience

Delivers application self-healing and endpoint recovery from unexpected downtime.

All Control capabilities, plus

- ✓ Application Health
- ✓ Application Resilience
- ✓ Remediation Script Library
- ✓ Investigations and Recovery of Lost/ Stolen Devices
- ✓ Rehydrate

Absolute Resilience for Security

Seamless and proactive patch management.

All Resilience capabilities, plus

- ✓ Patch Management
- ✓ Third-Party Application Patching
- ✓ Patch Compliance Reporting

MOST POWERFUL

Absolute Resilience for Automation

Remediation of security vulnerabilities through automated workflows.

All Resilience for Security capabilities, plus

- ✓ Vulnerability Remediation
- ✓ Continuous Monitoring
- ✓ Intelligent Automation and Workflows

ABSOLUTE®

Absolute Security is partnered with more than 28 of the world's leading endpoint device manufacturers, embedded in the firmware of 600 million devices, trusted by thousands of global enterprise customers, and licensed across 16 million PC users. With the Absolute Security Cyber Resilience Platform integrated into their digital enterprise, customers ensure their mobile and hybrid workforces connect securely and seamlessly from anywhere in the world and that business operations recover quickly following cyber disruptions and attacks. Our award-winning capabilities have earned recognition and leadership status across multiple technology categories, including Zero Trust Network Access (ZTNA), Endpoint Security, Security Services Edge (SSE), Firmware-Embedded Persistence, Automated Security Control Assessment (ASCA), and Zero Trust Platforms.
