DATASHEET

Absolute Resilience for Automation

Purpose-Built Endpoint Security Automation for MSPs

In today's hybrid work environments, security risks are rising—and so are client expectations. As an MSP, you're tasked with protecting diverse environments across multiple tenants while maximizing efficiency and minimizing costs. **Absolute Resilience for Automation** empowers MSPs to deliver proactive, scalable endpoint security through intelligent, automated remediation workflows.

Why MSPs Choose Absolute Resilience for Automation

Built on the Proven Strength of Secure Endpoint and Resilience

Absolute Resilience for Automation builds on the trusted capabilities of our Secure Endpoint (SE) and Resilience offerings—extending them with intelligent automation to proactively detect and resolve vulnerabilities, misconfigurations, and compliance drift across your entire managed environment.

Automate Remediation at Scale

Automatically detect and fix vulnerabilities, misconfigurations, and compliance issues across all managed client endpoints—without manual intervention.

Boost Efficiency with No-Code Workflows

Deploy and customize remediation workflows using a visual builder—no scripting expertise required. Execute actions directly at the endpoint to reduce response time and overhead.

Enforce Industry-Recognized Security Standards

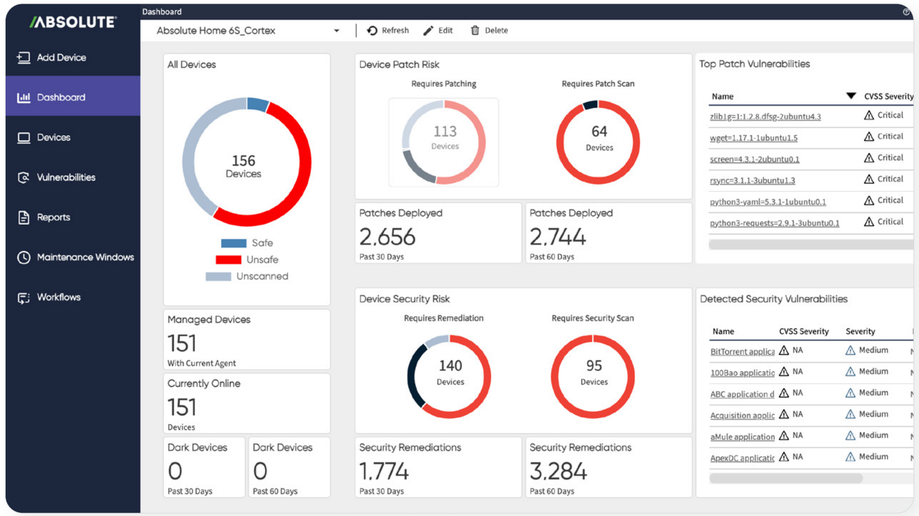

Help your clients meet security and compliance mandates by enforcing CIS Level 1 and Level 2 benchmarks in real time. Absolute enables continuous monitoring and automated policy enforcement that aligns with industry frameworks.

Deliver Faster Response & Better Outcomes

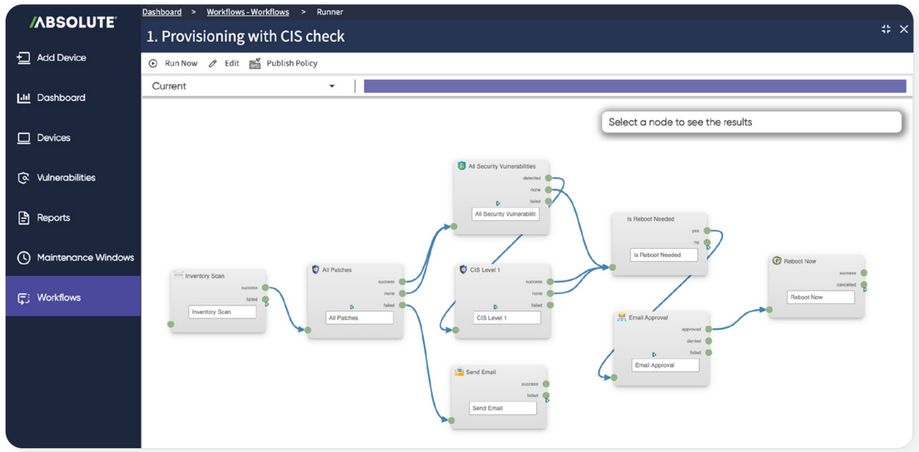

Close the gap between vulnerability disclosure and resolution. While it takes attackers just 5 days to weaponize vulnerabilities, Absolute lets you take corrective action in minutes.

Lower Costs, Higher Profitability

Leverage automation to scale your service offerings without increasing headcount. Save time for your techs and improve SLAs with proactive issue resolution.

Dashboard showcasing risk associated with patch health and security remediations.

Defining automated remediation workflows using the Cortex builder.

Key Capabilities for MSPs

- **Library of Pre-Built Scripts** Tap into thousands of proven workflows to remediate common issues like outdated AV, missing patches, open ports, disabled firewalls, and more.
- **Policy-Driven Self-Healing** Set real-time policies to trigger self-healing actions when risky behaviors or configurations are detected—keeping your clients compliant and secure.
- **Live Endpoint Visibility** Monitor OS health, application integrity, and security posture in real time, ensuring zero blind spots across your managed devices.

MSP Benefits at a Glance

- ✓ **Faster Incident Response** – Dramatically reduce mean-time-to-remediate (MTTR) for your clients.
- ✓ **Predictable, Scalable Security Services** – Standardize security delivery with automated workflows.
- ✓ Stronger Compliance Posture – Help clients meet HIPAA, PCI, and cyber insurance requirements with automated documentation and enforcement.
- ✓ **Lower Risk, Higher Trust** – Reduce attack surface and increase client confidence with always-on protection.

Ready to Extend Your MSP Offering?

Let Absolute Resilience for Automation do the heavy lifting, so your team can focus on strategic growth.

Built-In, Not Bolted On

Powered by Absolute Persistence®, embedded in the firmware of 600M+ devices from major OEMs, your endpoint connection is always on—even if the OS is compromised.

Absolute Visibility

Source of truth for device and application health.

What's Included

- Device Health
- Security Posture
- Device Usage
- Geolocation
- Web Application Usage
- Endpoint Data Discovery

Absolute Control

Lifeline to protect at-risk devices and data.

All Visibility capabilities, plus

- Geofencing
- Device Freeze
- File Delete
- Device Wipe
- End User Messaging
- Remote Firmware Protection

Absolute Resilience

Delivers application self-healing and endpoint recovery from unexpected downtime.

All Control capabilities, plus

- Application Health
- Application Resilience
- Remediation Script Library
- Investigations and Recovery of Lost/ Stolen Devices
- Rehydrate

Absolute Resilience for Security

Seamless and proactive patch management.

All Resilience capabilities, plus

- Patch Management
- Third-Party Application Patching
- Patch Compliance Reporting

MOST POWERFUL

Absolute Resilience for Automation

Remediation of security vulnerabilities through automated workflows.

All Resilience for Security capabilities, plus

- Vulnerability Remediation
- Continuous Monitoring
- Intelligent Automation and Workflows

/ABSOLUTE®

Absolute Security is partnered with more than 28 of the world's leading endpoint device manufacturers, embedded in the firmware of 600 million devices, trusted by thousands of global enterprise customers, and licensed across 16 million PC users. With the Absolute Security Cyber Resilience Platform integrated into their digital enterprise, customers ensure their mobile and hybrid workforces connect securely and seamlessly from anywhere in the world and that business operations recover quickly following cyber disruptions and attacks. Our award-winning capabilities have earned recognition and leadership status across multiple technology categories, including Zero Trust Network Access (ZTNA), Endpoint Security, Security Services Edge (SSE), Firmware-Embedded Persistence, Automated Security Control Assessment (ASCA), and Zero Trust Platforms.
