DATASHEET

Absolute Control for MSPs

Take Command of Every Endpoint—Anywhere, Anytime

As an MSP, you're responsible for securing, managing, and supporting endpoint devices across multiple client environments—many of which are remote, mobile, or outside the corporate firewall. Absolute Control™ helps you do just that: maintain full control over your customers' endpoints, ensuring compliance, reducing risk, and delivering fast, effective remediation when issues arise.

Whether you're supporting a healthcare provider, law firm, or distributed workforce, Absolute Control empowers you to act quickly and confidently—without needing physical access to a device.

Purpose-Built for the MSP Mission

Retain Visibility & Control Off-Network: Absolute's firmware-embedded Persistence® technology ensures you can monitor and control endpoints—even if they're off-network or compromised. You stay connected, even when your clients can't.

Remotely Mitigate Risk at Scale: Remotely freeze lost or suspicious devices, wipe sensitive data, or selectively delete files. Protect your clients' data without requiring manual intervention.

Automate Compliance & Policy Enforcement: Use geofencing to detect unauthorized movement or policy violations. Set location-based triggers for device lock, alerting, or data deletion to meet compliance and insurance requirements.

Communicate Securely with End Users: Send secure messages directly to device screens—ideal for notifying users of policy violations, support steps, or lost/stolen status.

Reduce Help Desk Load with Faster Resolutions: Minimize investigation time with real-time geolocation, device health, and endpoint usage data—all from the Absolute Console.

Built for MSP Delivery

- **Multi-tenant friendly:** Manage devices across different client environments from a centralized console.
- **Cloud-native:** No on-prem hardware required—easily scale as client needs grow.
- **Embedded resilience:** Pre-installed on 600M+ devices from major OEMs.
- **Service-ready:** Easily package into endpoint protection bundles for compliance, incident response, or device lifecycle management.

Use Cases MSPs Can Deliver With Absolute Control

- Lost or stolen device recovery with geolocation and remote lock/wipe
- End-of-life device decommissioning
- Travel policy enforcement using geofencing
- Ransomware response: freeze endpoints instantly to contain threats
- Remote employee offboarding and data sanitization
- Regulatory data protection (HIPAA, GDPR, etc.)

Expand Your Services with Absolute's Tiered Portfolio

Edition	What You Get	Ideal For
Absolute Visibility	Device health, app usage, security posture	Baseline monitoring and compliance
Absolute Control	Remote wipe, freeze, geofencing, messaging	MSPs delivering proactive endpoint protection
Absolute Resilience	App self-healing, remediation, recovery	High-touch clients with critical uptime needs
Resilience for Security/ Automation	Patch management, automation, continuous monitoring	Compliance-focused or high regulated clients

Ready to Differentiate Your MSP Services?

Absolute Control gives you the power to protect your clients' endpoints wherever they are—with no gaps, no downtime, and no excuses.

Absolute Visibility

Source of truth for device and application health.

What's Included

- ✓ Device Health
- ✓ Security Posture
- ✓ Device Usage
- ✓ Geolocation
- ✓ Web Application Usage
- ✓ Endpoint Data Discovery

Absolute Control

Lifeline to protect at-risk devices and data.

All Visibility capabilities, plus

- ✓ Geofencing
- ✓ Device Freeze
- ✓ File Delete
- ✓ Device Wipe
- ✓ End User Messaging
- ✓ Remote Firmware Protection

Absolute Resilience

Delivers application self-healing and endpoint recovery from unexpected downtime.

All Control capabilities, plus

- ✓ Application Health
- ✓ Application Resilience
- ✓ Remediation Script Library
- ✓ Investigations and Recovery of Lost/ Stolen Devices
- ✓ Rehydrate

Absolute Resilience for Security

Seamless and proactive patch management.

All Resilience capabilities, plus

- ✓ Patch Management
- ✓ Third-Party Application Patching
- ✓ Patch Compliance Reporting

MOST POWERFUL

Absolute Resilience for Automation

Remediation of security vulnerabilities through automated workflows.

All Resilience for Security capabilities, plus

- ✓ Vulnerability Remediation
- ✓ Continuous Monitoring
- ✓ Intelligent Automation and Workflows
