

Reduce Risk with Microsoft 365 Copilot Readiness Planning

AI Readiness Planning is essential to mitigating risk and enabling your clients to safely and securely use Microsoft 365 Copilot, whether they are migrating from another ecosystem or are already within the Microsoft 365 environment. A phased AI Readiness Plan provides a structured approach to assess, migrate, secure, deploy, and optimize Microsoft 365 to use Copilot for maximum benefit.

Pax8 Professional Services are specifically aligned to support each phase of AI Readiness Planning.

AI Phase	Professional Services Details
Cyber Hygiene	<ul style="list-style-type: none">• Data Assessment (pulls current data on environment)• Identity (Entra ID)• Mobile Device Management (Intune)• Security (Defender, SentinelOne, CrowdStrike, etc.)• All Inclusive Offering: Business Premium Adoption Bundle
