Drive Client Success with Self-Led Business Central Implementations

Affordably upgrade ERP software with self-guided implementation

Implementing a new accounting and operations software system for your clients can be intimidating. Upfront costs, set timelines and lack of expertise can stand in your clients' way.

Pax8 Professional Services **accelerates your business growth with a self-guided approach to help your clients implement Microsoft Dynamics 365 Business Central**. Simplify the switch to a new ERP system by getting your clients the features they need on their own timelines.

Launchpad for Business Central – Self-Guided Implementation

Fixed-scope, fixed-price implementation for accounting and operational software includes:

- Self-guided system setup following a simple step-by-step configuration
- No upfront costs or consultant-led setup needed
- On-demand training to get clients started quickly
- Unique, affordable monthly subscription for Business Central and ongoing support
- Option to expand system functionality as business needs evolve

Partnering with Pax8 Professional Services to deliver your clients' projects is simple with our proven, repeatable approach.
