

Cyber Risk Insights that Protect Your Bottom Line

Clarity to run more efficient operations, strengthen security, and unlock new recurring revenue with financial protection as a service.

Run More Efficiently

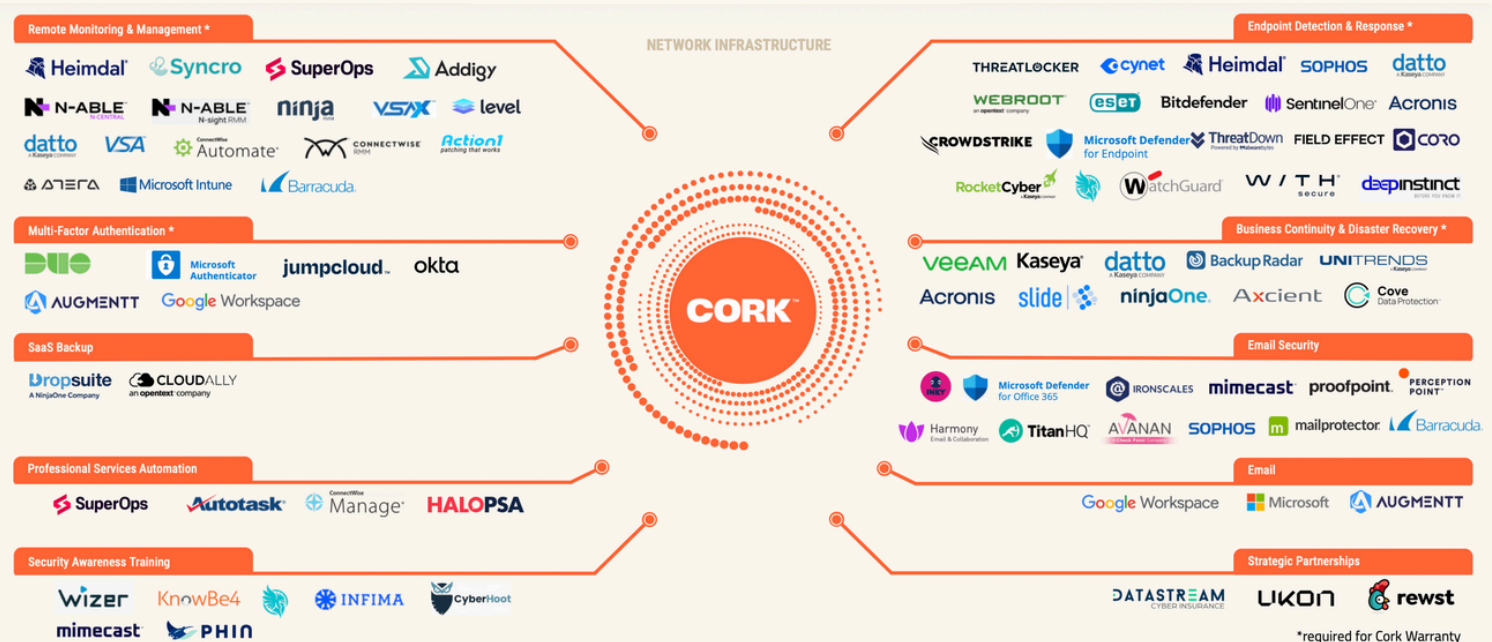

One unified view of your cyber ecosystem eliminating blind spots and duplicate efforts so teams respond faster with clarity.

Strengthen Security

See what individual tools miss. Consolidate signals across your stack, detect gaps sooner, and prove protection with confidence.

Unlock Recurring Revenue

Introduce financial protection as a service to reduce client risk, increase revenue, and improve client retention.

CORK VANTAGE

The Cyber Risk Insight Platform that unifies your cyber ecosystem.
With 100+ integrations, Vantage's unified view allows you to see
risk clearly, turning data into valuable business insights.

Uncover Hidden Risks

Spot vulnerabilities, misconfigurations and blind spots across every client.

Prioritize What Matters

Vantage highlights what needs attention first, without creating unnecessary noise.

Prove Protection

Turn visibility into trust with verified proof your clients can see.

Cork Financial Protection

Turn protection into profit. Warranty-backed coverage that transforms incidents into fast recovery. Eliminate financial loss for you and your clients when cyber events occur.

- Fast payouts, zero claim denials to date
- Creates new recurring revenue
- Builds trust and stickiness with clients
- Recover billable hours from incident response

What Our Partners Say About Us

Cork's pricing structure makes it seamless to include in our service bundle and deliver real value to our clients. On top of that, the platform makes deployment alignment effortless. It's efficient, intuitive, and truly great stuff - **Adam Karp, KL Tech**
