VALIMAIL | CORE

Stop phishing attacks before it reaches your customers

Brand impersonation is being used in more than 80% of spear-phishing attacks.[1]

Valimail Core® is the better, smarter way to accelerate your journey to DMARC enforcement. **While 15% of companies reach DMARC enforcement, 90% of Valimail customers achieve highly accurate and continuous enforcement within 90 days.** All without any manual SPF and DKIM configuration.

Protect your domains and improve email deliverability with our best-of-breed solution that offers advanced sender intelligence, unlimited SPF lookups, and contextual analytics – all in one simple application that anyone can use.

Up to
10%
boost in email deliverability

Increase email deliverability after successfully getting to DMARC enforcement.

Up to
$400k
in FTE expenses saved annually

Unlock DMARC automation to get you to continuous enforcement – all without touching any DNS.

Identify up to
100%
of your email services by name

One-click authorization for up to 100% of services within your ecosystem – instantly.

Never
block
good email

Unlimited SPF lookups with Instant SPF™, the only solution to solve the 10-domain lookup limit without resorting to flattening or subdomains.

The only
FedRAMP authorized
DMARC vendor

Annual third-party validation to ensure all federal data is consistently protected at the highest level in the cloud.

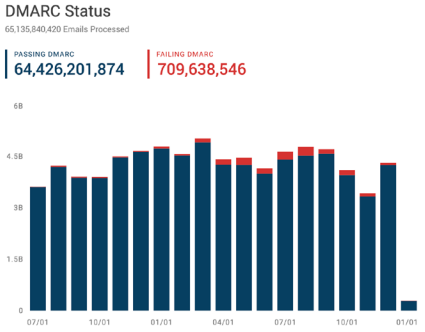

100%
compliant.
No risk to PII data.

Enterprise-grade compliance – GDPR and CCPA-ready and SOC2 Type 2 compliant so there's no risk to your data.

Get started with free domain visibility. No strings attached.

Valimail patented technology and cutting-edge capabilities

AUTOMATED DMARC

Fail-proof way to get you to continuous DMARC enforcement.

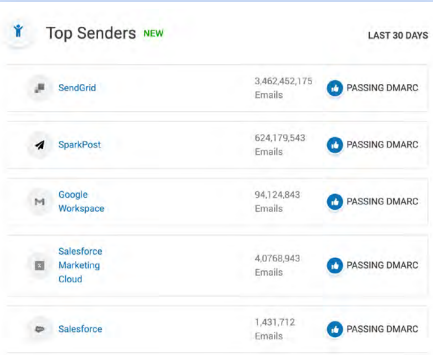

Use a single, user-friendly interface to control all SPF, DKIM, and DMARC operations across domains and services without having to fiddle with DNS or IP addresses. We've removed all the complications to email authentication, so it's as easy as following a simple checklist from your dashboard.

INSTANT SPF®

The only patented, scalable, and fail-safe SPF solution to unlock unlimited SPF lookups.

Valimail Instant SPF® automatically updates to configure all your services. It is the only solution that instantly creates SPF records that are appropriately customized to each email server request. It guarantees 100% accuracy for every single email, 24/7, regardless of network changes to services or underlying email service providers.

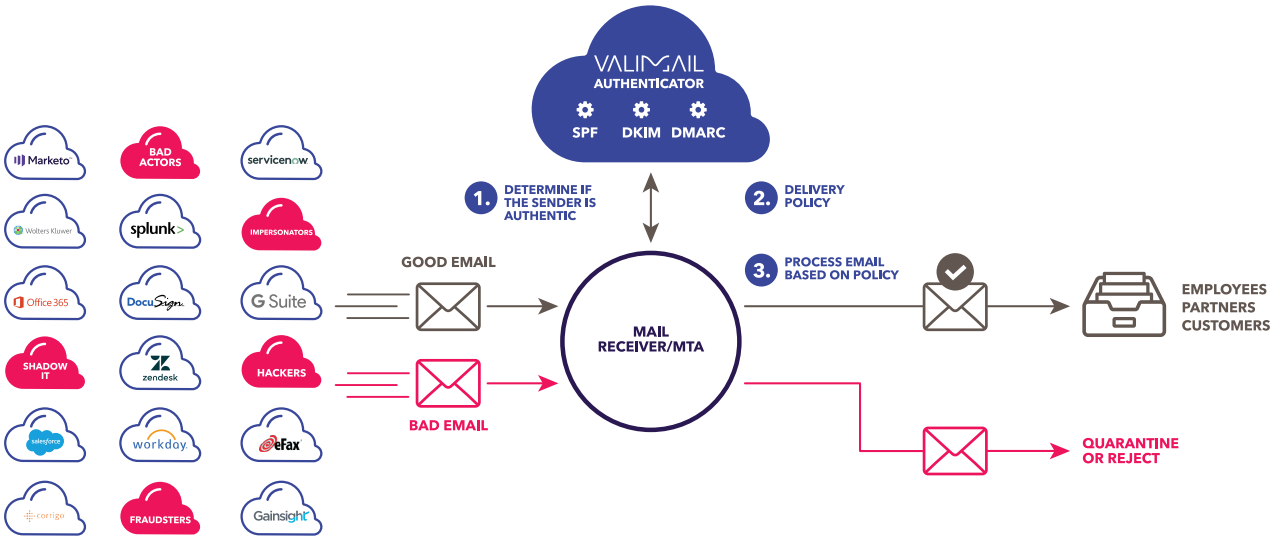

PRECISION SENDER INTELLIGENCE

Get total visibility into your domains to automatically identify senders by name.

Valimail has thousands of pre-identified unique sending services to automate onboarding of even your most obscure sending services. You can also configure "good senders" with proper DMARC authentication right within our app and dynamically keep track of thousands of third-party email services and configurations so you don't have to.

How it works

TRUST YOUR EMAIL

Valimail is the global leader in DMARC-as-a-service, and the inventor of hosted DMARC. The company's cloud-native products stop impersonation attacks and protect brands by authenticating sender identity. With patented industry-leading technology, Valimail unlocks DMARC enforcement for businesses of every kind and every size – increasing enforcement success rates from less than 25% to over 95%. As the only FedRAMP-certified platform and the vetted DMARC partner for Microsoft 365 environments and Twilio SendGrid, Valimail also holds leadership positions on every key email authentication standards body, championing increased trust and safety in the email ecosystem.
