usecure

END USER PORTAL

The End User Portal gives employees self-serve SSO or magic link access to training, phishing, breach, and policy insights, helping them take ownership of cyber behaviour, reduce IT chasing, boost completion rates, and provide audit-ready evidence that strengthens security culture.

How it works: SSO or a magic link takes users straight to their personal dashboard to review progress and complete training and policies.

Personal risk scores with trends

Users see exactly where they stand

One dashboard for tasks and results

Training grades, phishing results, and progress in one place

Complete training & policy signatures fast

All outstanding tasks in one hub.

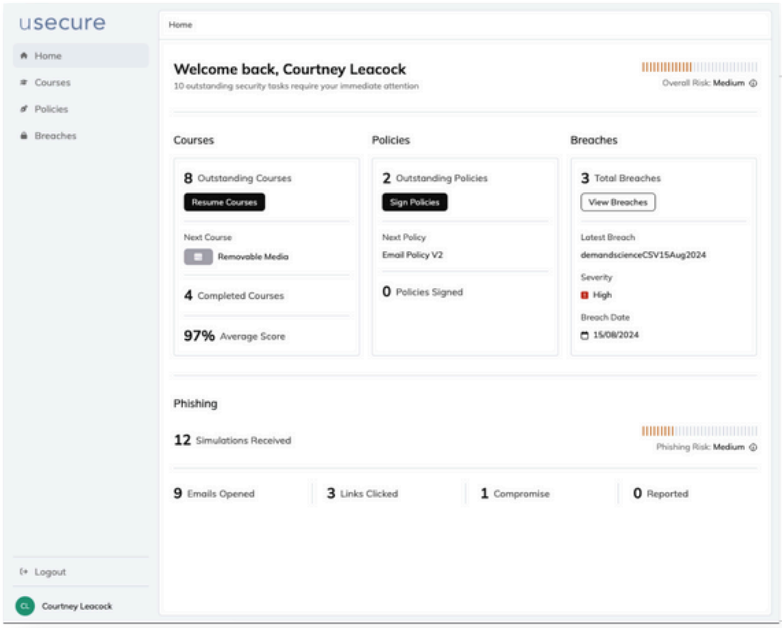

Staff self-serve

Fewer tickets and reminders with magic link or SSO access.

Human risk insights in one place

See risk scores, learning progress, phishing results, and policy status at a glance.

- Human Risk Score
- Phishing Risk Score
- Course Completion Rate
- Outstanding Training Courses
- Average Course Grade
- Outstanding Policy Approvals
- Phishing Simulation Results
- Latest Breaches

Benefits

- **Reduce admin effort:** Users self-serve for training and policies.
- **Boost completion rates:** All tasks and insights in one place.
- **Change behaviour faster:** Real-time results prompt improvement.
- **Prove compliance:** Instant training and policy records for audits.
- **Build a stronger security culture:** Transparency drives everyday accountability.
