

## Gain Support and Expertise to Transform Your Security Practice

### Need to strengthen your MSP's security posture?

Managing security well at your MSP is a must, especially if you serve clients in a CIS regulated industry. But developing a highly effective security program for your MSP that increases defensibility for both you and your clients can be challenging. Many MSP professionals find that **additional expertise, support, and accountability are essential to improving cybersecurity and achieving CIS compliance.**

### The Flight Plan

CIS Flight Plan Peer Groups help members move their MSPs' security practices forward and drive CIS compliance through action-oriented content and interactive discussions. Group meetings bring together targeted resources and expertise from across Pax8 Academy to equip you with the skills and knowledge needed for CIS compliance.

CIS Flight Plan Peer Groups focus on developing and implementing the 56 safeguards from the Critical Security Controls Implementation Group 1 (IG1) to make your business more defensible. The Flight Plan is built around implementing at least one safeguard per session. The speed of implementation will rely on the complexity of the safeguard and group members completing assignments for each meeting.

### Putting CIS Compliance Into Practice

CIS Flight Plan Peer Groups focus on putting your knowledge of CIS controls into practice at your MSP and taking action to improve your defensibility. Each group meeting will include assignments to be completed between sessions, as well as accountability checks. This includes technical implementation within your organization, so you will need both buy in authority to implement changes.

Now is the time to transform your MSP's security practice through expert collaboration and improved accountability.
