OSTENDIO

Unlock New Revenue by Expanding Your Offerings to Security & Compliance

With 40,000+ managed service providers on the market and unprecedented industry consolidation, growing and scaling is harder than ever. Ostendio helps MSPs transition from standard onsite IT systems to protecting client data across the cloud. Demonstrate serious security to gain the trust of clients and partners, and unlock new revenue.

INCREASE CLIENT RETENTION AND "STICKINESS" BY DELIVERING ADVANCED SECURITY PROGRAM EFFICIENCY

To meet evolving client needs, Ostendio helps partners rapidly scale from standard onsite IT offerings to security & compliance.

ELIMINATE YOUR CLIENTS' RISK OF FAILING SECURITY AUDITS

The costs of failing an audit far outweigh the cost of managing an effective security program. Ostendio increases maturity in the implementation of controls, and guarantees clients will pass their next security audit.

SAVE CLIENTS UP TO 80% ON AUDIT PREP TIME

With Ostendio, your clients are always audit-ready. Increase maturity in the implementation of client security controls, and guarantee clients will pass their next security audit.

DITCH SPREADSHEETS, EMAILS, AND MANUAL EFFORT

Rapidly scale from standard IT to advanced security & compliance to earn higher margins and gain a competitive edge.

SUPPORT 300+ SECURITY COMPLIANCE STANDARDS

Support multiple frameworks and reassign completed audit tasks to eliminate audit prep redundancy.

"Ostendio is one of our core products that we bundle for our advanced cybersecurity and compliance solutions. Tracking our clients' different compliance rules and regulations help drive [the security and compliance] process forward from the ground up. The feature sets are why we really love the Ostendio platform too to help us out with that journey.
