WHY EVERY MSP NEEDS A CYBERSECURITY CULTURE

Syllabus

Updated: February 2025

Training Overview

The *Why Every MSP Needs a Cybersecurity Culture* training will empower MSP professionals to integrate cybersecurity into their organizations. During four interactive one-hour sessions, participants will learn how to define and infuse a culture of cybersecurity, articulate mission, vision, and values with a security focus, manage and mitigate risks, and implement effective security practices through tabletop exercises.

After completing the training, attendees will be equipped to lead their teams in adopting and maintaining a robust cybersecurity mindset.

The overarching goal of the training is to help MSP professionals understand the importance of having cybersecurity fully integrated into everything they do as part of their organizational culture. Participants will learn tips and tricks for establishing a cybersecurity culture.

This training is designed for:

- MSP owners, leaders, and managers of companies of all sizes
- Security team leaders
- Engineers and technicians

What You'll Get

- 4-hours of virtual, interactive content taught by an expert instructor with MSP cybersecurity expertise
- Downloadable videos* of the content you can watch on-demand at your convenience
- Downloadable slide decks, handouts, and resources

Learning Objectives

Partners attending this course will learn how to:

- Define cybersecurity and cybersecurity culture
- Develop mission, vision, and values that are cybersecurity focused
- Use risk tolerance principles to manage and reduce risk at the MSP and with clients
- Put the cybersecurity culture into action with tabletop exercises, improve processes, and encourage champions

* Videos will either be recordings from your session or previously recorded material in which partner faces and voices have been removed. It is recommended to attend courses live to receive the full benefits of interactive Q&A with the instructor and class.

Training Topics

- Session 1: Introduction
 - Defining Cybersecurity and a Cybersecurity Culture
 - Current cybersecurity climate in the MSP industry
 - How to be cybersecurity-minded
