PRODUCT DESCRIPTION

Netwrix 1Secure for MSPs

Be more profitable while making your clients more secure and compliant

Stand out among other managed service providers and maximize your profit by adding truly effective security and compliance services to your portfolio. Netwrix 1Secure is designed specifically to help MSPs support and secure their multiple clients — efficiently and cost-effectively.

ACCELERATE INCIDENT DETECTION AND RESPONSE

Improve the security posture of your clients by tracking critical changes in their environments, so you can respond before any serious damage is done.

GET CLEAR VISIBILITY

Easily keep up with all the tenants you're managing. Instead of missing critical information in a multitude of separate tools, have all data in a single tab and integrated into your workflows.

MINIMIZE COSTS

Get the most value for your buck by paying per user. Stop worrying about unexpected additional costs breaking your budget thanks to transparent pricing.

CUSTOMER FEEDBACK

"Our team has had significant success in handling user account compromises and ransomware attacks using Netwrix 1Secure. Its robust monitoring and alerting capabilities allow us to detect and respond to threats swiftly, ensuring minimal disruption to our clients' operations.

The comprehensive visibility and control provided by 1Secure empower us to confidently address and mitigate these security challenges, maintaining the highest level of protection for our clients."

Rory Cooksey, Director of Growth at WheelHouse IT

Start your security journey and maximize your profit

KEY FEATURES

MULTI-TENANT AND SAAS

Manage all your client organizations from one dashboard, and enjoy the simplicity and cost savings of a modern software-as-a-service (SaaS) solution.

ALERTS ON CRITICAL CHANGES

Be notified promptly about suspicious activity in any client's Microsoft 365 and on-premises environment, so you can respond in time to prevent serious damage. Customize the alerts based on each client's needs.

ADVANCED SEARCH AND FILTERING

Slash the time and effort required to investigate incident details and resolve user issues. Filter on properties like forwarding email address, or file size to get the information you need in seconds.

RISK ASSESSMENT

Diagnose your clients' security posture, identify and prioritize the most concerning risk factors - such as accounts that require no password or empty security groups - and high-risk users, and lower the overall risk level of organizations.

EXPORTABLE RISK REPORT

Subscribe to and export all risk assessment reports related to Active Directory, Microsoft Entra ID, and SharePoint Online as .pptx files.

RISK AND ALERT PROFILES

Create and assign individual alert and risk profiles for your managed organizations and specify unique recipients. More flexible and granular capabilities to manage your setup.

HUMAN-READABLE REPORTS

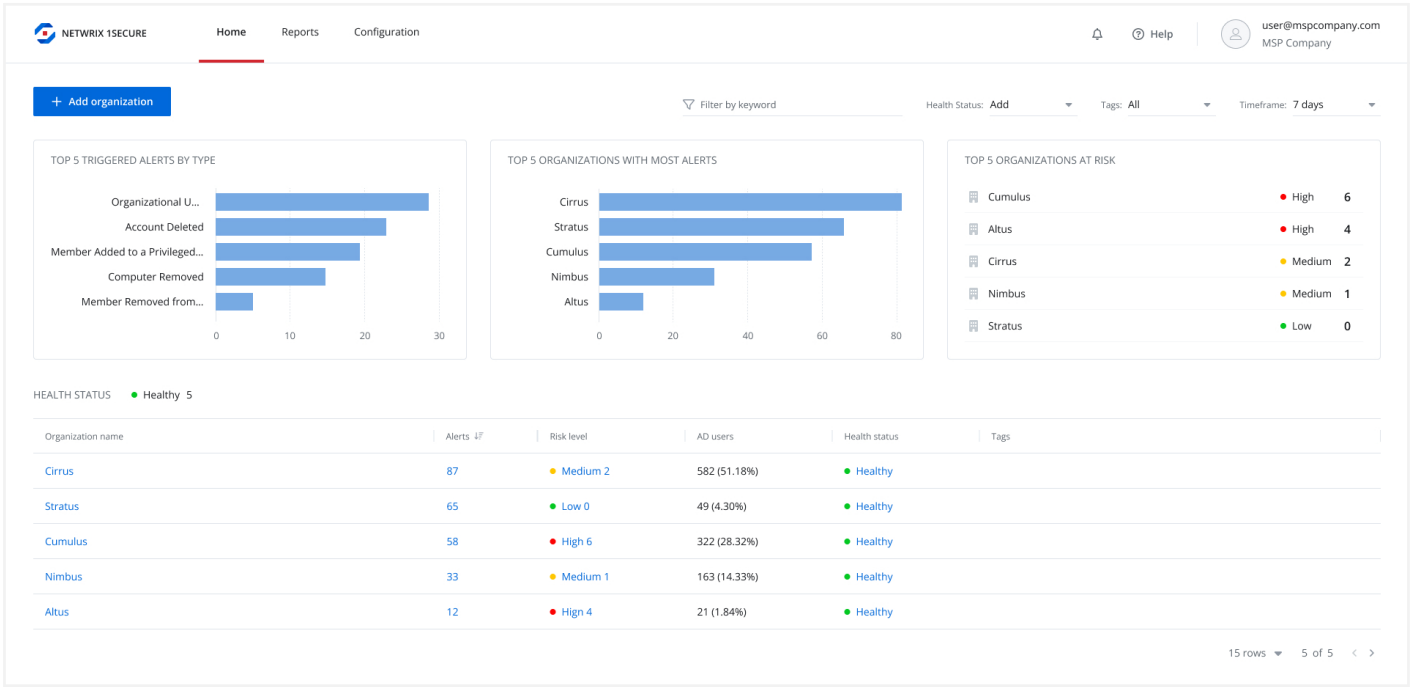

Be ready whenever clients or auditors need proof of your work. Choose from a wide range of easy-to-read predefined reports, or create your own.

ACTIONABLE DASHBOARDS

Instantly know what needs your immediate attention with intuitive dashboards that provide a birds' eye view of the state of your clients' Microsoft 365, Active Directory, Entra ID, and SQL Server environments and their Windows file servers.

EASY ECOSYSTEM INTEGRATIONS

Keep your business workflows intact while enriching your systems with valuable information by seamlessly integrating Netwrix 1Secure with your professional services automation (PSA) tools, such as ConnectWise or ServiceNow.

SUPPORTED DATA SOURCES

	Changes auditing	Logon/sign-in auditing	Permissions auditing
Active Directory	✓	✓	
Entra ID	✓	✓	
SharePoint Online	✓		✓
Exchange Online	✓		
Windows File Servers	✓		
SQL Server		✓	

INTEGRATIONS

IT Service Management (ITSM) tools

- ServiceNow
- ConnectWise

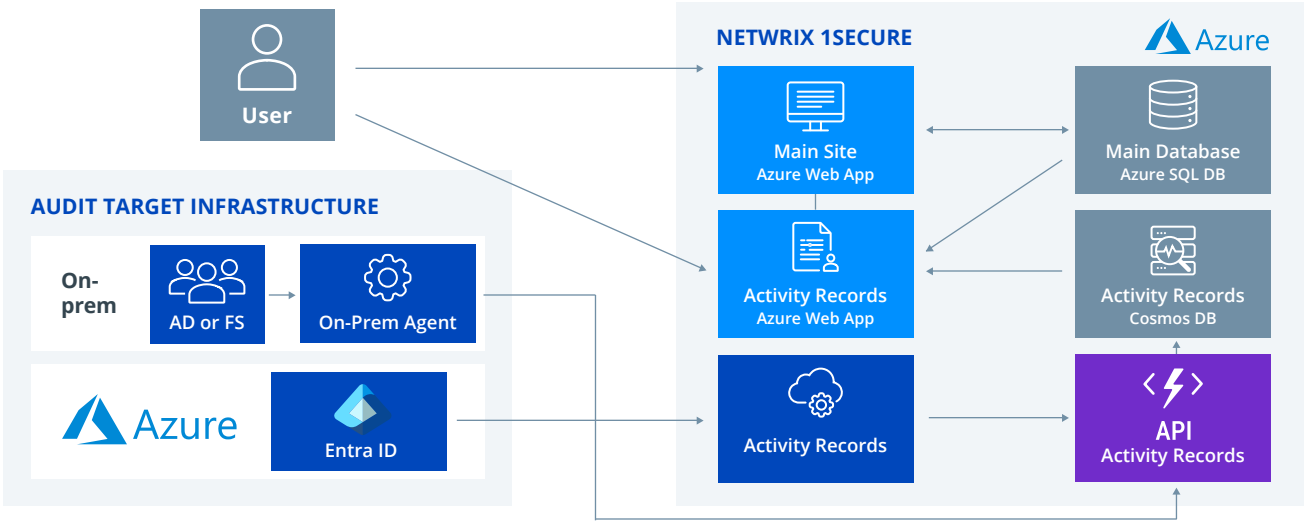

DEPLOYMENT

Since Netwrix 1Secure is a SaaS solution hosted in Microsoft Azure data centers internationally, it does not require any specific hardware or software for deployment.

LICENSING

Netwrix 1Secure is exclusively licensed based on the number of "enabled AD users". Since customers are not required to pay any additional fees or costs, calculating Netwrix 1Secure's total cost of ownership (TCO) is straightforward.
