Email Archiver

Retain without risk. Archive without complexity.

The ability to prove data integrity, retention, and recoverability is essential to pass audits and recover from breaches. NinjaOne Archiver delivers long-term, immutable archiving for Microsoft 365 and Google Workspace, helping IT teams meet regulatory, legal, and business continuity requirements with confidence. Fully integrated into the NinjaOne platform, Archiver provides always-on journaling, eDiscovery, legal hold, and policy-based retention, all without complexity or bolt-on infrastructure.

Key Features

Real-time journaling
Capture every sent or received message without relying on backup intervals. Preserve departing employee communications and files for investigation or record keeping.

Zero-latency eDiscovery
Quickly respond to HR, legal, or compliance requests. Search across email, files, and attachments with over 20 search parameters and lightning-fast results.

Secure and compliant
AES-256 encryption, TLS 1.2, MFA, and immutable WORM storage are built in, ensuring your data is secure and compliant. Meet industry regulations without overhead.

Unified with Backup
Combine NinjaOne archiving and backup for full-spectrum defense and simplified management, eliminating the need for on-prem appliances or legacy archiving systems.

Precise retention policies
Apply policies by user, domain, department, or role to ensure defensible data governance and be prepared for audits. Enforce 7-year retention for financial, legal, and healthcare data.

	Backup	Archiver
Email	up to 12x / day	Real-time (journaling)
Contacts	1x / day	1x / day
Calendars	1x / day	1x / day
Tasks	1x / day	1x / day
OneDrive	1x / day	3x / day
Google Drive	1x / day	1x / day
SharePoint / Shared Drive	3x / day	3x / day
Groups & Teams	3x / day	3x / day
Private Chat	-	1x / day

The NinjaOne Difference

Fast to learn, simple to use.
The cloud-native NinjaOne platform is built from the ground up by our team, optimized for power and ease of use.

#1-rated free support.
Our top-rated Support team is there when you need them, earning them an average 98% satisfaction rating year over year.

All your devices in a single pane of glass.
Efficiently manage all your endpoints regardless of operating system – from smartphones to servers, VMs to networking devices – within a single console to reduce complexity and cost.

Unlimited, free on-boarding and training.
We'll help get you up and productive in days, not months, and training is always there for your team.

Automation from day one.
Patch automation is part of every device setup and hundreds of out-of-box automation scripts are ready to use and save you time.

Constant innovation.
Frequent releases that include features requested by our customers ensures NinjaOne continues to meet your needs.

Fast navigation.
For MSPs, every second counts, so the NinjaOne platform is optimized for speed and efficiency.

What our customers are saying

G2 ★★★★★ GetApp ★★★★★ Software Advice ★★★★★ Capterra ★★★★★

"NinjaOne's backup policies give us a ton of control over what we backup, what we exclude, how much bandwidth we use, and how long we keep data which helps us balance our data protection needs with storage costs."

Chris Porosky
CEO, Red Roads Network

"We use NinjaOne Backup to ensure critical servers and workstations are protected and easily recoverable. Having NinjaOne Backup being built from the ground up and fully integrated into the Ninja platform is a huge benefit."

Jesse Vella
Staff Supervisor, In-Shore Technologies
