

# Compliance Summary Report

For All Clients

8/1/2024 - 12/18/2025

Protection Provided by Corkville Technology Partners

Created on 12/18/2025

Events  
Resolved

167

189 Total Events

Your assets are in good hands

A compliance event is generated when an indicator of risk is present in your environment. An event is resolved after the risk indicator has been mitigated.

## Event Response Times

| Asset Type | % events resolved<br>< 24 hrs | % events resolved<br>< 3 days | % events resolved<br>< 7 days |
|------------|-------------------------------|-------------------------------|-------------------------------|
| Endpoint   | 24%                           | 25%                           | 26%                           |
| Inbox      | 0%                            | 2%                            | 2%                            |
| Domain     | 21%                           | 24%                           | 24%                           |

## Compliance Event Breakdown

| Asset Type | Total | Events                                | Count |
